"Everyone can Braid"

BRAIDED TWOSOME

MATERIALS: 4 Skeins Kentucky Soft Spun Variegated Yarn • 1 Yard ½" Wide Velvet Ribbon • ½ Yard 1½" Wide Velvet Ribbon • Needle and Sewing Thread • 12" Purse Zipper • Lining Material

To Braid: Measure off 6 strands of yarn of various lengths, the longest about 1¾ yds. and the shortest about 1 yd. Tie the strands together. Separate into 3 parts of 2 strands each and begin braiding by bringing the left strands to the right and the right strands over the center and under the first strands. Braid until within 1½" of end of a strand. When bringing the short end to the center, insert a new strand, letting it protrude about 1" above the braid, and continue to braid with the new strand. When about 3 more twists of the braid have been made, let the short end fall to the back of the braid. Continue in this way for each joining, cutting the protruding pieces off close to the braid. **HAT: Crown:** Coil the braid and sew firmly on the wrong side, taking a stitch in the coil, then in the braid to be added. Continue to sew around the coil until there are 10 rows of braid. Cut braid, making a neat joining. Press piece flat on wrong side using a damp cloth. Holding the right side of this piece towards you, insert needle in the center of braid, taking a slant stitch in each lap of the braid. Continue in this manner around entire piece, then draw up to 1" larger than the proper head size and fasten off. **Brim:** Start where the joining on the above piece ended. Hold the braid to be attached on the right side of hat and sew around until reaching the starting point of brim. Continue to sew around 3 more rows and make a neat joining on the underside of brim in direct line with previous joining. **Brim Facing:** With additional braid, work on underside of brim. Sew additional braid facing along 4 rows of brim, and join with same sewing stitch along outer edge of brim. **Finishing:** Turn hat on wrong side. Place it over some object the size of crown and press with a damp cloth. Press and shape the brim by laying it on a flat surface. Place a band of ½" wide velvet ribbon around the outside of hat just above the brim. Make the joining in direct line with previous ones. Make a bow of 1½" wide velvet ribbon and attach over place of joinings.

BAG: Make braid as for hat. **To Shape Bag:** Coil the braid, holding it on a flat surface, and sew firmly on the wrong side, taking a stitch in the coil and then one in the braid to be added. Continue to sew around the coil, keeping piece perfectly flat until circle measures 15" in diameter. End off. Press piece flat with a damp cloth. Line with material. Fold in half. At side edge of top, fold in 6" to form a gusset, and continue to shape gusset down along one side to about 1" above bottom of bag, narrowing size of gusset evenly and gradually so that it measures only about ¾" at bottom of bag. Pin into place. Shape and pin gusset on other side of bag to correspond. Sew firmly into position, sewing on right side of bag, with regular sewing thread and small secure stitches. Insert and sew zipper across remaining top opening of bag. Sew button in position as illustrated. **Handles:** Measure off 9 27" strips of yarn. Separate into 3 parts of 3 strands each and braid. Make 2nd handle to correspond. Attach as illustrated. **Buttonloop:** Make a 9" strip out of the 6 strand braid. Fold in half and sew together, leaving an opening large enough to fit around button. Sew loop in position on opposite side of bag from where button is placed, so that it folds over zipper.

DO YOU KNOW? Should you take off your gloves —or leave them on— when you shake hands? You'll be perfectly correct if you leave them on! You'll always be right, too, when you wear white or natural gloves. They look smart with everything—but keep them spotless!
